PERSONAL SUMMARY

Fashion Design graduate with experience in womenswear design, technical development, and materials. Skilled in Adobe Illustrator, CLO 3D, patternmaking, draping, and garment construction. Collaborative team player with experience developing garments from concept through finished product.

PROFESSIONAL EXPERIENCE

FOOTWEAR MATERIALS COORDINATOR

Brooks | 2024

- Created a signature material palette to establish cohesive color, texture, and material direction across seasonal footwear collections.
- Created seasonal material toolboxes, hand-feel boards, and presentations to communicate material direction.
- Collaborated with cross-functional teams and vendors on material selection, testing, and development.
- Initiated a supportive sports bra concept based on consumer needs, applying material, construction, and performance research.

FASHION DESIGN INTERN

Luly Yang | 2023

- Created and updated technical packages for couture garments to support product development
- Maintained physical and digital textile, product, and sample libraries, ensuring accurate and accessible development information
- Supported seasonal development through sample organization, textile development, and preparation for fittings and fashion shows
- Managed samples and product inventory while supporting day-to-day studio operations

SENIOR COLLECTION

Technical Design & Development | SCAD | 2026

- Developed garments from initial sketches through patterns, fittings, construction, and finished samples
- Created technical flats and garment specifications using Adobe Illustrator
- Evaluated fit and construction throughout development and adjusted patterns to improve garment execution
- Constructed tailored womenswear using woven and stretch fabrics with specialized internal construction techniques

STYLIST / SALES ASSOCIATE

Evereve | 2021–2022

- Styled clients based on individual preferences, body type, and current trends.
- Gained firsthand insight into customer preferences and womenswear trends while supporting daily store operations

MERILEE BRADSHAW SEWING STUDIO

Technical Designer | 2020

- Developed patterns and construction specifications for production.
- Constructed and evaluated samples from pattern through finished product using industrial sewing techniques.
